

INSULATED VACCINE VAN

2WD - CNG

Reliable & Compliant Insulated Transport for Immunization Programs

Quality, Management, Environment, Health & Safety Standards

CDSCO Certified

USFDA Listed

European CE

ISO 13485:
NABCB/IAF

ISO 9001: IAF

7 Electric Safety
Certifications

ENSURING UNINTERRUPTED VACCINE DISTRIBUTION WITH PRECISION & EFFICIENCY

The Insulated Vaccine Delivery Van is designed to meet the stringent requirements of global immunization programs, ensuring safe and efficient transport of vaccines, medical supplies, and ice packs to CHC, PHC, and UHC centers. This vehicle is built to protect cold boxes and their contents from extreme temperature variations, ensuring a longer hold-over period and maintaining the integrity of vaccines during transit.

Heavy-duty construction for long-lasting performance

Also available for Procurement through GeM Portal

Multiple access doors & safety features

Ergonomic driver's cabin for comfort during transport

Advanced insulation to maintain cold chain integrity

QUALITY ASSURANCE

Vehicle fulfills all the requirements of CMVR-RTO & ARAI norms

|USFDA Listed | CDSCO Certified | **WHO-GMP & CE.** ISO 13485:2016 (NABCB- IAF)
ISO:45001:2018 (IAF) | ISO 14001:2015 (IAF) | ISO 9001:2015 (IAF) | IEC 60529-2004
ISO 13849-1:2015 | BIFMA INTERNATIONAL |

ROBUST BODY & DURABLE CONSTRUCTION

Engineered for reliability & long-lasting performance

Heavy-duty under-frame structure with reinforced pillars & roof sticks

Aluminum chequered plate flooring for durability & safety

Stainless Steel (SS) bottom sheet for corrosion resistance

100mm PU foam insulation between panels for enhanced thermal efficiency

SUPERIOR STRUCTURAL INTEGRITY

Super-strong structure formed from 16 GMS pressed CR/HR Hot Sections

Side pillars & roof sticks designed with anti-drumming rails & roof longitudes

Gusset & cleat reinforcements to improve vehicle stability & strength

Built for extreme conditions & heavy-duty operations

HIGH-PERFORMANCE FLOORING & PANELING

16G Aluminum sheet / chequered plate flooring for added durability

Exterior Paneling: 16G aluminum sheet for weather resistance

Interior Paneling: 18G aluminum sheet for a hygienic & smooth finish

Foamed-in-Place polyurethane insulation for maximum thermal efficiency

Precision roll-formed metal surfaces enhance panel rigidity

Sealed with profile gaskets for airtight protection

Ensures structural strength, energy efficiency & vaccine safety

ADVANCED THERMAL INSULATION

100mm PU foam insulation on all four sides & the floor		Roof insulation: 140mm PU foam / sandwich panels of extruded polystyrene	
Thermal conductivity: ≤ 0.081 Kcal	U-value: 0.020 W.M.K	Density: ≥ 30 kg/CBM	Maintains a stable, low-temperature environment for vaccines

MULTIPLE ACCESS POINTS

Double-leaf rear-opening doors for quick loading & unloading

Two side doors in driver's cabin for ease of access

Rear compartment fully partitioned from driver's cabin for temperature control

Spare wheel mounted on the rear side for convenience

Designed for easy accessibility & efficient logistics

PRECISION TEMPERATURE CONTROL

Inside temperature remains lower than ambient conditions

Fully insulated cargo box to ensure vaccine safety

Tapered/sloped roof prevents rainwater accumulation

White-painted exterior reduces heat absorption

Guaranteed cold-chain integrity in all weather conditions

DRIVER COMFORT & ERGONOMICS

Seating capacity: Driver + 1 passenger (1+1 seating)

Air Conditioner in driver's cabin for comfort in extreme weather

Comfort & efficiency for long-haul vaccine deliveries

TOOL KIT & ACCESSORIES (OPTIONAL)

Standard Tool Kit: Lifting Jack, Wheel Spanner, Screwdrivers, User Service Manual.

Accessories Included:

Mud Guards (04) | Steering Wheel Cover (01) | Foot Mats | Seat Covers | Rear Wheel Flap Fire Extinguisher (ABC Type)

SAFE & ACCESSIBLE CARGO COMPARTMENT

Aerodynamic front shape enhances fuel efficiency

Smooth-edged corners to prevent injuries & damages

Rear footsteps & handgrips for easy cargo access

Leak-proof cargo body to protect against contamination

Enhanced safety & accessibility features for seamless operation

IEC (INFORMATION, EDUCATION & COMMUNICATION) BRANDING

IEC Information on Immunization & Child Health will be painted on all three external walls

Customizable branding options available as per supply order

Spreading awareness while ensuring vaccine protection

INDUSTRY STANDARDS & COMPLIANCE

Meets global Cold Chain Standards for vaccine transport

Designed specifically for all climatic conditions

Procurement via GeM Portal for government & institutional buyers

Compliant, reliable & purpose-built for immunization programs

WARRANTY & COMPLIANCE

Warranty: 2 Years or 72,000 km, whichever comes earlier.

Compliance: Meets CMVR, ARAI, and BIS/ISO standards.

CNG- INSULATED VACCINE VAN TECHNICAL SPECIFICATIONS

Vehicle Brand	Mahindra
Model	PHN2BAADBS6PSFD3WD
Engine Type	CNG
Minimum Power Output	45 KW
Cylinder Capacity	Minimum 3 cylinders or above
Engine Capacity	Minimum 700 cc or above
Horsepower & RPM	Minimum 20 hp @ 3000 RPM
Transmission	4/5 Forward + 1 Reverse gear with Power Assisted Steering Mechanism
Clutch Type	Single plate Dry Friction
Braking System	Disk/Drum , Complies with CMVR Rule No. 96
Frame Section	Rectangular/Tubular/Hollow Section/Ladder Type
Battery	12V, 60AH or more (BIS/ISO marked)
Fuel Tank Capacity	Minimum 25 Kg
Suspension	Parabolic/Semi-Elliptical Leaf Spring (Front) and Semi-Elliptical (Rear)
Steering System	Power/Manual Steering
Wheelbase	Minimum 2500mm
Cargo Box Dimensions	As per CMVR Rule No. 93
Weight Carrying Capacity	Minimum 500 kg
Ground Clearance	Minimum 170mm
Wheel Drive	2WD/4WD
Turning Radius	Maximum 12m (As per CMVR requirements)
Emission Norms	BS-VI Compliant
Door	2 (Driver+ Co-Driver)
Tires	Radial-Nylon Tubeless
CNG kit	CNG Sequential kit/ CNG Traditional Kit
Component in CNG	CNG Reducer/ CNG Valve / CNG Gas filter/ CNG Indicator Switch / CNG Pressure Gauge/ high pressure Pipe etc.
